IMPORTANT INFORMATION AND DISCLAIMER

Index Provider and Ownership

The Plenum CAT Bond UCITS Fund Index (the "Index") has been independently developed, designed, calculated, maintained and published by Plenum Investments AG, Zurich, Switzerland (the "Index Provider"). Plenum Investments AG acts as the owner and provider of the Index and retains control over its methodology, calculation and publication, unless otherwise specified.

Purpose and Use of the Index

The Index is provided for informational and comparative purposes only. It is intended solely to serve as a reference benchmark for comparative purposes in connection with investment funds and other financial products. It does not constitute an investment product, investment recommendation, investment advice or an offer or solicitation to buy or sell any financial instrument.

The Index does not represent an actual portfolio or an investment strategy in which investors can directly invest. Its performance is calculated in accordance with the applicable Index methodology and does not reflect the costs, fees, transaction expenses or other charges that may arise in connection with an actual investment. Accordingly, the performance of an investment fund or other financial product may differ materially from the performance of the Index.

Regulatory Status and Use Restrictions

The Index is used exclusively as a comparative reference and is not intended to serve as a benchmark within the meaning of the EU Benchmark Regulation (Regulation (EU) 2016/1011). In particular, the Index is not used:

- to define or determine the asset allocation or portfolio composition of any investment fund or financial product; or
- for the calculation of performance fees or any other fee linked to the performance of the Index.

The Index does not constitute an investment objective, investment strategy or binding investment restriction of any fund referring to it. No investment decisions or portfolio allocation decisions are based on the Index.

Relationship with Investment Funds

The use of the Index as a comparative reference does not imply that any fund seeks to replicate the Index or that its portfolio composition is aligned with the Index. The investment strategy, portfolio composition and risk profile of a fund may differ materially from those represented by the Index.

Accuracy and Limitation of Liability

While reasonable care has been taken in the development, calculation, compilation and publication of the Index, no representation or warranty, expressed or implied, is made as to its accuracy, completeness, reliability or suitability for any particular purpose.

To the extent permitted by applicable law, Plenum Investments AG shall not be liable for any errors, omissions, interruptions or inaccuracies in the calculation or publication of the Index, nor for any direct, indirect or consequential losses arising from the use of, or reliance upon, the Index or any information contained herein.

Amendments and Discontinuation

Plenum Investments AG reserves the right to amend, revise, recalculate, suspend or discontinue the Index at any time, subject to the applicable Index methodology and relevant legal and regulatory requirements.

Past Performance

Past performance of the Index is not a reliable indicator of future results. The value and performance of investments may rise or fall, and investors may not recover the full amount invested.

Intellectual Property and Use Restrictions

The Index, its name, methodology, calculation framework and related intellectual property rights are owned by or licensed to Plenum Investments AG. They may not be reproduced, distributed, modified, commercially exploited or otherwise used without the prior written consent of Plenum Investments AG. The Index is currently calculated, published and provided free of charge. Plenum reserves the right, at its sole discretion, to introduce a fee structure for the use of this index in a commercial context at any time in the future.

Independence and Endorsement

Unless expressly stated otherwise, the Index Provider does not sponsor, endorse or promote any investment fund or financial product referring to the Index. The reference to the Index in fund documentation or marketing materials does not constitute an endorsement of the relevant fund by the Index Provider.
